Follow your dog wherever he is up to 20 Km with the Dogtrace GPS collar! Without subscription !

The Dogtrace X20 Dog Dog Collar always shows you the direction and distance of your dog (s). Very practical hunting to find a dog lost or injured.

Extremely simple to use, the receiver shows you by arrow the direction of your dog and displays its distance.

The command can track up to 9 dogs (with 9 collars), extremely simple collar / control synchronization.

The necklace and the command are connected by radio: no subscription, no sim card! Economic solution.

- Useful range: 20 km in open ground
- "Barrier" function: sounds when your dog is moving away. (Distance adjustable from 20 to 2000 m)
- Compass function for easy orientation on a map.
- Detects " stop " or " closes " of the dog in the presence of game.
- Case & waterproof collar (resists immersion)
- Case & collar on rechargeable batteries: 40 hours autonomy (total recharge in 8 hours)

Compatible with colored collars references CH5210 to 5216 for immediate visual identification of the dog.

Supplied with a guarantee certificate! The product is guaranteed for two years from the date of purchase!
