A revolutionary hunting rifle with its ambidextrous operation and modularity

Equally at ease for driven hunting, on the lookout or on stalking, the BERETTA BRX1 will adapt to both right-handed and left-handed hunters, thanks to its innovative rotating bolt.

- Increased accuracy with its cold-hammered floating rifled barrel
- A rigidity of the whole with its action and one-piece barrel
- Magazine with a capacity of 5 + 1 rounds
- M14x1 thread with 16mm protection ring
- Linear reset bolt
- Adjustable ejection for left or right handed use with a simple 180° rotation of the bolt head
- Bolt locking with 8 studs for standard calibers and 16 studs for magnum calibers
- Ergonomic cocking lever easily accessible and adjustable for left or right handed use
- Relaxation with starting weight adjustable on 3 levels (0.9 kg, 1.2 kg, 1.5 kg)
- Three position safety
- Internal locking aid system
- Butt plate with adjustable length by means of spacers
- Interchangeable pistol grip to adapt to the morphology of the hunter
- Non-slip technopolymer stock
- 21mm Picatinny rail for mounting an optic

BERETTA strikes a blow in the world of hunting with its first revolutionary linear recocking rifle.

With simple tool-free manipulation, the bolt head can be reversed to allow right or left ejection. The cocking lever can also be easily reversed for the left or right handed hunter.

Its machining quality and the one-piece assembly of the receiver / barrel, provides incredible precision, lower than MoA (Sub MoA)

Totally modular, it is possible to modify the length of the stock by means of spacers, as well as to modify the thickness of the pistol grip to adapt to the hand.

A modern and versatile weapon offered at an attractive price.

The BRX1 has undergone NATO qualification tests normally reserved for military weapons, attesting to the reliability of this rifle.
