SKU	Designation	French Law	Caliber	Chamber (mm)	Cartridge case base(mm)	Energy (J)	Speed (m/s)	Shots size	MSRP
MF11273	Proud Cartridge with Expansive Nature bullet 24.3 g - Cal.12/70	C	cal. 12	70 mm	25	2515	455	Bullet	22.00 € incl. tax

Double impact effect (deep penetration / strong expansion in soft zone)

The central arrow is in lead and the hammer mass in brass. Its deformation is greater on impact.

- Speed (m/s): $V_{2.5} = 455$ / $V_{50} = 300$
- Energy (Joule): $E_{2.5} = 2515$ / $E_{50} = 1094$
- Recoil Energy (Joule): 26
- Usable range (m): 50

*Recoil energy is calculated in joules for a 3Kg 12 gauge shotgun.

The "Fier" bullet is a projectile made up of 4 parts in 12 and 16 gauge.

- A central arrow to ensure significant penetration,
- A hammer hammer in which to insert the arrow, to release the kinetic energy,
- A 2-piece container that encloses the whole thing.

It flies in one piece and grips the obstacle very well, it is a little less sensitive to ricochets. The central arrow and hammer mace are only released on impact with the animal and penetrate deeply.

The qualities of the Proud projectile:

- High accuracy
- Double effect on impact (deep penetration / strong expansion in the soft zone)
- Excellent hooking and powerful penetration into the target, even in the event of a tangential shot from the front or from the rear. High and regular speeds.
- High impact energy
- Moderate pressure and damage-free passage through the chokes
- Very low ricochet risk
- High quality French encartouche

- Complies with CIP standards
