- Mag. Capacity: 375 BB's
- Hop-up: Adjustable
- Velocity: 105ms/350fps
- Weight: 2350gr/5.2lb
- Energy: 1.05 joules

Description:

The ASG CZ Scorpion EVO ACE (Anniversary Celebration Edition) is the latest edition to join ASG's well-established and award-winning CZ Scorpion EVO range. It's been 10 years since the original ASG CZ Scorpion EVO was first introduced to the world of airsoft, bringing with it a number of innovations and setting a completely new standard for AEGs. The ACE Edition continues this spirit and combines some unique features with established best-in-class combinations.

Out of the box, the CZ Scorpion EVO ACE comes pre-installed with the ASG ULTIMATE 30k CNC motor for class-leading reliability and performance. This upgrade delivers a fast trigger response and shooting experience while paving the way for potential user upgrades later.

All CZ Scorpion EVO ACE models will come pre-installed with an ASG ULTIMATE MilSpec M105 spring (green), creating a power output of 1.05 joules. This allows the CZ Scorpion EVO ACE to pair perfectly with an 11.1V LiPo*** battery and be suitable for the majority of gaming venues worldwide.

For countries that have additional legislative requirements, SEMI only and M95* variants will also be available. The ASG CZ Scorpion EVO ACE comes with a host of ergonomic improvements, including an all-new ATEK mag release, a new FDE ATEK Hi-Cap Magwell, and a modified ATEK handguard.

These changes not only provide improved ergonomics over the standard ASG Scorpion EVO, but also enable a unique two-tone black and FDE color combination.
