The "Volunteer Rifle" has a .451 caliber barrel, with an optimal rifling pitch for target shooting at 100-150 meters. Features a front sight with interchangeable inserts and an English diopter that allow high precision shooting. Light trigger with an oiled finish stock.

On November 16, 1859, the British National Rifle Association was founded, to promote target shooting in British territory, to assist the bodies of volunteer riflemen. The association, for the first time, organized a national event held at Wimbledon in 1860. Inspired by this historic sporting event, we are pleased to present the "Volunteer Rifle".
