<https://www.europarm.fr/en/produit-13619-Appareil-et-collier-GPS-DogTrace-X30T-orange-fluo>

SKU	Designation	French Law
-----	-------------	------------

The DOG GPS X30T 100% waterproof is a 2 in 1 device without subscription! Combining GPS and dressage!

It is both a device used to locate but also train your dog (s) up to 20 kms.

The ultra-precise GPS can monitor up to 13 items, dogs (requires the purchase of 13 collars), hunters and / or waypoints. The tracking can be done either with the compass system integrated in the orange box but also with the application on smartphone or tablet with the geolocation of the elements searched on a map (dogs, hunters, places of destination). The transmitter acquires its position with the GPS satellites and transmits the position information to the receiver of the manager using a radio frequency (RF) signal. The receiver can be connected wirelessly to a mobile phone or tablet (in Android) and all paired devices can be viewed using the Dogtrace GPS application on the map. The receiver display can also monitor RF signal strength, GPS position accuracy, transmitter and receiver battery status.

This kit can also train a dog (s) up to 20 kilometers with 15 levels of electrical stimulation. Delivered with 2 sets of contact points, 2 pieces of 10 mm and 2 pieces of 17 mm.

- Display readable by the receiver in direct sunlight and in the dark
- Fully waterproof receiver and transmitter
- View all devices (dogs, other managers, waypoints) on the map
- Ability to view cards online and offline
- Indication of barking of a dog with antecedents on the map
- Long battery life (over 40 hours), receiver and transmitter are rechargeable
- 2 acoustic signal modes (silent / loud)
- 15 levels of stimulation
- Fashion light to recognize the dog in the dark
- Channel switch for communication between transmitter and receiver
- Compass function
- FENCE function, acoustic limit to define the zone for the dog
- BEEPER function, motion detection / dog position
- Waypoint function, ability to store up to 13 receiver coordinates, ability to navigate to these points

- CAR mode, receiver operating mode (portable device) in the vehicle
- Quick start receiver (handheld device)
- The smallest and lightest (transmitter) collar (248g) of competing devices
- Easy to use
- The receiver is compatible with X20 transmitters (only certain features are limited)
- Fluorescent orange color of the case and the necklace to avoid mislaying them during the hunting actions.
- Download the "Dogtrace GPS" app for Android on Google Play.
