A space-saving telescopic sound moderator dedicated to hunting on the move!

A sound suppressor with a slim and elegant design intended for hunting.

- Excellent sound reduction of 30 dB (in .308 caliber)
- diameter of 49 mm, length of 235 mm and weight of 334 g.

Cal. Max .223 = .22-250, .22 hornet, .222, .223

Cal. Max 6.5mm = 6mm, .243, 6.5CD, 6.5x55

Cal. Max 308 = 270 Win, 7x57, 7x64, 7mm RM, 7.62x51, 308 Win, 300 WM, 30-06 Spr

Cal. Max 375 = 7.92x57, 338WM, 9.3x62, 375 H&H

An excellent sound suppressor developed for hunting rifles.

- Machined from matte black anodized aircraft aluminum alloy
- Stainless steel baffle and thread
- Barrel cover system with rear decompression chamber
- Recoil Reduction
- Important durability
- Front part of the interchangeable silencer to be able to adapt to several calibers
- Low protrusion of the sound reducer at the front of the barrel (108mm), despite a length of 23.5cm!
- Maximum barrel diameter: 22.5 mm

A silencer with impeccable finishes with its touch of elegance.

Its telescopic system with covering of the barrel, allows a distribution of the masses offering rigidity and prevents any deformation of the folding barrel under the weight of the silencer.

This allows you to maintain incredible precision, while practicing discreet shooting.

The strong point of STALON silencers is the right balance between acoustic performance, weight, ease of assembly and size.

Equip yourself with the best silencer for hunting, especially for stalking or lying hunters.

The strength of the STALON X108 is its interchangeable front part. If you have several hunting rifles of different calibers but equipped with the same thread, it is only possible to invert the front part of the silencer, without having to acquire a silencer per rifle.

In order to measure the sound attenuation capacity of their silencers, STALON used a strict military protocol, MIL-STD-1474D. This protocol is used in military equipment and makes it possible to accurately and non-erroneously measure the capacity of a sound moderator for assault rifles and weapons of war.

Find the detailed protocol in detail by [clicking here](#).
