Introducing the PTS SideArm Magazine (SAM) series, a line of airsoft pistol magazines designed for different models of airsoft gas blowback pistols.

The PTS SideArm Magazine is designed specifically for use with the Tokyo Marui GBB Pistol G-17 Gen 4 style. These 25 round gas magazines feature an ambidextrous release and are made from metal alloy with a matte finish. They are designed to improve the performance and durability of your airsoft guns. Featuring a rubber gas seal loop with a curved design, the G Style Charger ensures improved airtightness for optimal performance. Additionally, the wider baby loading hatch makes loading babies quick and effortless.

The SideArm G Style PTS Charger has several notable features. The pre-installed PTS Enhanced Pistol Shockplate-G, specially designed to attenuate shock and impact, provides increased durability. Constructed from steel, the valve minimizes gas loss to improve performance and increase gas efficiency, while facilitating cycle smoothness.

In addition, the T8 type rubber gas way seal with a hardness of 60 degrees ensures excellent sealing functionality. **This charger is compatible with the Tokyo Marui G17 (Gen 4) style, PTS ZEV OZ9.**

Features :

- Steel valve management to increase gas efficiency
- PTS-G Enhanced Pistol Damper Plate Pre-Installed
- T8 type G-series Gas Route Seal Bucking 60 degree (Black Rubber)

Specification :

- Black color
